

LEGACY GREENSCAPES

ENVIRONMENTAL EDUCATION LEADERSHIP CORPS MEMBER – ANNOUNCEMENT

Legacy Greenscapes, Inc. (LG) manages Clark County's newest park, Legacy Grove, to ensure people enjoy clean, safe, and beautiful parks. LG is committed to providing the region with public parks that raise the quality of life of our communities. Parks offer a space for people to play, exercise, imagine and connect with neighbors. Legacy Grove is an inclusive 31-acre park with features for people of all ages and abilities. The park continues the healing mission of the community hospital located on the site from 1967 to 2012.

Legacy Greenscapes, Inc. seeks a dynamic environmental education member to help advance its mission of promoting environmental stewardship and engagement in Winchester and Clark County. At Legacy Greenscapes, the AmeriCorps member's activities will center on providing environmental education programming at Legacy Grove Park and throughout the community. The member will work alongside the Program Coordinator, who will provide guidance, support, and mentoring.

Our member will build relationships with schools, community groups, park neighbors and visitors, and partner organizations to coordinate environmental education opportunities for all ages and abilities. The member will gain experience planning and implementing outdoor play programs for diverse audiences. The member will also support and provide activities for the Legacy Grove volunteer program. In collaboration with the Executive Director, the member will contribute to marketing materials and help maintain social media accounts and the park's website.

This project will serve young children, adults, and seniors. The Park includes accessible walking paths and an inclusive nature-based play area, so children and adults with limited mobility, physical disabilities, or cognitive disabilities can actively engage with their friends and families at the park.

Full-time and part-time positions and flexible hours are available.

The candidate in this position will receive a biweekly living stipend and access additional benefits. More detailed information about the benefits of an AmeriCorps position will be provided upon request.

Required Qualifications:

- Ability to pass a background check and be accepted into the AmeriCorps program.
- Ability to work evenings and weekends as needed.
- Must possess a valid driver's license
- Some level of familiarity with environmental education programs.
- Comfortable speaking to groups and working with children and families.

To apply, please follow the instructions as listed on the Legacy Greenscapes website, Get Involved/Careers page: <https://legacygreenscapes.org/get-involved/careers/>
