Section 1
Introduction

LG has issued this Request for Proposal (RFP) to solicit bids from turf maintenance organizations ("Firm" or "Proposer") for Legacy Grove, a public park. This RFP contains instructions for the Proposal. Questions from Firms shall be accepted by the Legacy Greenscapes Executive Director via email. Emails shall be submitted to djackson@legacygreenscapes.org.

Background
Legacy Grove is an urban park (opened October 2020) located at 1107 W. Lexington Avenue in Winchester, Kentucky. The park is a publicly-supported, private park for the community with several amenities: ADA hard-surface multi-use trail, dog park, open lawns, beautiful landscaping, bio-filtration gardens, restrooms, and a custom-designed 2-acre children’s adventure play area.

Overall Criteria
Firms are to provide turf maintenance services on 30 acres of land in Winchester, Kentucky. The Firm must currently be in the business of providing turf maintenance services. It’s ideal, but not necessary if the Firm has completed at least one (1) turf maintenance project similar in size or scope within the past five (5) years. References will be requested.

Priorities for LG
- The park will be beautiful, clean, safe, and fun for all visitors.
- The park will be open to the public year-round.
- The park and its amenities should be accessible to all.
- The park should have a positive impact on the surrounding neighborhoods.

The selected Firm will be required to:
- Execute a contract with a tax-exempt non-profit organization and not include sales tax as part of the Firm’s bid;
- Verify strict background check requirements for all personnel allowed at the park by the Firm as set forth herein; and
- Maintain General Liability Insurance ($1,000,000 minimum, $2,000,000 aggregate), Workers’ Compensation Insurance ($500,000), Fidelity/Dishonesty Coverage ($50,000),
Business Automobile Liability ($1,000,000), Pollution Liability ($1,000,000) and furnish proof of such insurance; and

- Add Legacy Greenscapes, Inc. and The Greater Clark Foundation (property owners) as Additional Insured (AI) on the General Liability policy.
- Execute a formal contract for services as prepared by LG if awarded the job.

END OF SECTION 1
Section 2
Scope of Work

This scope of work pertains to the requirements of maintaining the turf areas at a 30-acre park in Winchester, Kentucky. The overall responsibility of the Firm is to coordinate, plan, manage, and perform activities described in this RFP to maintain a beautiful, clean, and safe environment in the park.

The Firm shall furnish all labor and materials necessary to perform the turf and landscaping maintenance tasks in the RFP. It shall be the Firm’s responsibility to verify the areas, sizes, and quantities of the surfaces and items to be maintained in this RFP. Failure of the Firm to verify the listed amounts will not relieve the Firm of the responsibility to provide all services required to the standards included herein for the prices submitted in the Firm’s proposal.

A Firm may request a site visit while preparing the Proposal by contacting the Executive Director.

2.1 HOURS WHEN WORK IS TO BE PERFORMED

All work is to be performed Monday through Friday from 7:00 a.m. EST to 6:00 p.m. EST and Saturday 8:00 a.m. EST to 5:00 p.m. EST. All work will be done during normal hours for public use of the park. Work will be done in a manner as not to disturb the daily functions of the park and programs being held at the park and to ensure the safety of the public.

The Turf Maintenance firm will be required to communicate effectively and work in tandem with the Landscape Maintenance firm on-site.

2.2 BEGINNING OF CONTRACT TERM

At least five (5) business days prior to the commencement of the contract, the Firm shall submit in writing the name of the on-site supervisor authorized to act for the Firm in every detail for the turf maintenance services.

At least five (5) business days prior to the commencement of the contract, the on-site supervisor will confer with LG Executive Director and review the total specification requirements, total workload, and services provided by the Firm.

2.3 SPECIFICATIONS

The lawn maintenance areas must be maintained and serviced at the frequency and to the standards as detailed in these specifications. This RFP is intended as a benchmark of the minimum standards for maintenance. However, LG respects the firm's knowledge and will consider all recommendations made by the Firm in its response to this RFP.

The Executive Director shall determine whether the tasks have been performed and that the performance is in accordance with the standards outlined in these specifications. Failure to perform a task or to perform a task to the specified standard will result in reductions in the
monthly invoice or contract termination.

A. GENERAL STANDARDS
   a. FIRM RESPONSIBILITIES
      i. Firm shall provide staff able to perform work to the highest standards of horticultural excellence. *Key staff shall know current best management practices (BMP) regarding safety, hazardous materials and spill response, lawn care, plant health, and integrated lawn pest management.* LG reserves the right to demand the replacement of the Firm’s staff who do not meet the standards for safety, professionalism, or turf knowledge.
      ii. Provide an emergency contact list identifying the names, positions, and phone numbers of key maintenance personnel. Provide mobile numbers for the maintenance manager and on-site supervisor.
      iii. Attend meetings and site inspections as requested.
      iv. Firm shall maintain a computerized log of activities performed and provide a written copy monthly.
      v. Firm shall provide LG a listing of all employees, what vehicles they drive (make, model, and license number), and an estimated schedule for being at the park. This information will be given to the Winchester Police Department and 911 Dispatch for security purposes.
   b. GUARANTEE AND REPLACEMENT
      i. Firm shall replace, at no additional cost to LG, any turf, plant material, trees, or any LG property damaged due to improper maintenance attention or procedures. Replacement material shall be the same size and variety as the dead or damaged material. Property damage replacement must be done within two (2) weeks of damage identification. Alternatives to size, variety, and scheduling of replacements must have written permission from LG.
      ii. Firm is not responsible for losses, repair, or replacement of damaged work or plant material resulting from theft, extreme weather conditions, vandalism, vehicular incidents (other than the Firm’s vehicles), or the acts of others over whom they have no reasonable control.
      iii. Firm shall inform LG monthly of plant/tree losses unrelated to the maintenance activities, provide LG with a probable cause for the plant loss, and provide recommendations for replacement and estimated cost.

B. SCOPE OF WORK
   a. GENERAL GUIDELINES
      i. Firm shall furnish all labor, equipment, and materials necessary to complete the maintenance of turf and plantings as specified herein.
      ii. Turf Maintenance shall consist of seasonal clean-up, mowing, integrated pest management, weed/insect/disease control, litter control, and any other procedures consistent with good turf practice necessary to ensure normal, vigorous, and healthy turf growth.
         1. All turf shall be mowed with professional quality mulch-mowing equipment.
         2. Firm is encouraged to use non-polluting devices like rakes and brooms when feasible. LG prefers blowers and other power equipment that are low-decibel, low-fossil
fuel consumption, and low-emissions models.

b. TURF MAINTENANCE

i. Complete Mowing Service

1. Mowing of all turf as needed during the course of the growing season, within the terms of the contract. The park has areas with different turf maintenance needs. The areas are identified on the park areas map included in this RFP. Suggestions from the Firm on ideal care due to use and type of use are welcome.

Weekly mowing and trimming (high-use areas):
   a. Playground
   b. General lawn
   c. Neighborhood entrances
   d. Nature trail - trail only

Bi-Weekly (every two weeks) mowing and trimming (or some variation of frequency):

   g. Nature trail - full area

2. Mowing is to be completed (or at least close to completion) before noon. Inside the play area will be completed first upon the crews’ arrival.

3. Mowing height will be consistent and even prevent scalping of turf. Height may be increased or mowing skipped in the heat of the summer to control the burning of the turf. On average, the turf will be maintained at a height of 4.0 inches.

4. Mowing patterns will be alternated on a week-to-week basis to create a unique pattern as well as to prevent rutting and compaction of the turf.

5. Trimming around all buildings, fences, posts, signs, mailboxes, play areas, hydrants, steps, etc., shall be done each time mowing is performed.

6. Edging of all sidewalks, curbs, and landscape beds with a mechanical edger to ensure a neat, professional, and crisp appearance shall be done each time mowing is performed.

7. All trash and debris will be removed from the turf and properly disposed of before mowing.

8. Blowing off all grass clippings from all paved surfaces, including but not limited to sidewalks, parking lots, drive lanes, and pull-offs.

9. Hand weeding and weed control applications will be used to keep beds,
walks, and curbs as weed-free as possible. Large tools will be used to remove weeds, if necessary.

10. The contractor will maintain necessary insurance and a state Department of Agriculture pesticide license. Only properly labeled materials will be used. All applications are made under the direction of a licensed pesticide applicator.

11. Check all drains for debris and clear debris each time mowing is performed.

12. LG desires that bagging of clippings is not required. If it becomes necessary to bag clippings, remove any bagged or caught clippings from the park.

ii. LEAF REMOVAL

1. Weekly cleanup of all hardscape surfaces in the park: walking path, children’s play area, main circulation path, sidewalks, and pedestrian entrances.

2. Fall cleanup and mulching of leaves, branches, and debris from the site during the fall season.

iii. DOG PARK

1. Dog park turf will require additional maintenance, different from other park areas due to high use and type of use. Potential services: fill in holes dug by dogs, pest treatments, and the addition of surfacing due to wear and tear.

2. Mechanically trim all landscape turf edges bi-weekly. Edges include all areas where the turf meets hardscape, sidewalks, hydrants, fencing, etc.

3. Expertise or suggestions for care from the Firm are welcome.

c. TIME AND MATERIALS SCHEDULE

i. Include charges for the following, as-needed services:

1. Snow and ice removal.
2. Bush-hogging of nature trail.

d. EXTRA WORK

i. It is LG’s intent to keep the park in an exceptionally well-maintained condition. It is with this intent in mind that LG may consider authorizing extra work. Extra work will not be initiated by the Firm without written authorization from LG. In emergency situations, a not-to-exceed price may be submitted by Firm to LG via email for review and approval.
